

# Congratulations

You have purchased the finest air filter available. Your new air filter was custom made by hand to fit your system. The patented **HealthSmart Filter** was developed to provide people and their comfort systems with the maximum protection against airborne contaminants. With proper care it will last a lifetime.

## Changing Pads

1. Remove soiled pad by lifting a corner and rolling the pad up. Dispose of the rolled up pad.
2. Place a new pad over the frame, printed side facing you.
3. Using a pushing motion, push the pad into the frame going all around the frame.

## Installation

### Return air grill

1. Remove aluminum air filter from plastic package.
2. **Ceiling locations only.**  
Install white spacers (included) on all four corners of the filter on the side with no gasket. This prevents the filter from moving.
3. Place filter in to grill with the pad facing outward and the rubber gasket inside the grill.
4. Close grill and record replacement date.

### Furnace/Air Handler

1. Remove aluminum air filter from plastic package.
2. Install filter into system so that the air enters the pad and leaves through the electrostatic screen.
3. Close your system and record replacement date.

## Pad Replacement Schedule

	BIOSPONGE PLUS	PUREPLEAT	MICRO SPONGE	ACTIVATED CARBON	ZEOLITE
<b>EVERY 30 DAYS</b>	<b>EVERY 60 DAYS</b>	<b>EVERY 90 DAYS</b>	<b>EVERY 90 DAYS</b>	<b>EVERY 90 DAYS</b>	<b>EVERY 90 DAYS</b>

## Ordering Pads

To order replacement pads for your filter, contact your local dealer. Your dealers name and phone number can be found on your air filter frame label.
